

EMNIST

EMNIST data set sorted by class. 62 classes: 10 numbers, 26 uppercase letters, 26 lowercase letters. 814,255 labeled characters. Images are 28 x 28 arrays of gray scale colors.

We found two publications with working predictors on the data set: an OPIUM classifier just under 70 percent (~69.71), and a linear classifier at 51.8 percent.
